

REDEMPTION - Graphing Trig Functions

Graph each function using radians.

1) $y = -1 + 2\sin 4\theta$

2) $y = 2 + 3\sec \frac{\theta}{3}$

3) $y = \frac{1}{2} \cdot \cot \frac{\theta}{2} - 2$

4) $y = 4\cos \frac{\theta}{3} + 1$

5) $y = 3\csc 2\theta - 1$

6) $y = 4\tan \frac{\theta}{3} - 1$
